

AppDistri & PureID are pretty excited to announce that we will be donating a Cybersecurity product worth AUD100,000.

As part of our corporate social responsibility and to help the organisations become cybersafe, we have decided to donate PureAUTH identity access management and passwordless solutions.

PureAUTH passwordless solution is based on patented technology of PureID which leverages cryptography in a smarter way to give a resilient authentication platform.

Australia based Organisations working in charity, not for profit (NFP) and education sectors are eligible to receive the Cybersecurity product on identity and access management (IAM) and passwordless as part of this donation.

AppDistri has been nominated by PureID as the distributor for PureID products in Indo Pacific covering Australia and New Zealand markets.

AppDistri is a home-grown innovative distributor with a diversified portfolio of vendors in the digital transformation and data security space. AppDistri specializes in application design, deployment and distribution. Speaking on the initiative, Archana Kamatgi, Founder at AppDistri group said, **“being able to help the organisations become cybersafe is critical and we are proud to be able contribute to this mission “**

PureID is a UK based company with offices in UK and India and expanding to the North American market.

“Every organisation drains a significant amount of their efforts and IT budget in securing passwords. PureID along with our partner App Distri would like to help technical and social communities and not for profit organisations, to save their cost and time wasted in managing passwords and utilize them for better purpose”, said Ajit Hatti, the founder of PureID while expressing his views behind this initiative.
